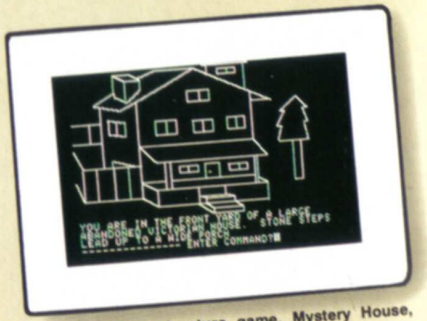
"A miracle from the kitchen."

Sierra didn't start in a garage like other software vendors. We weren't born out of a marketing plan or staffed and funded by a major corporation. My husband and I started Sierra on a rickety table, in the kitchen of our small family home.

Our first software product began as an evening project. Ken (my husband) and I worked on it together. It was kind of like when we hung the pictures in the den or assembled the family photo albums - I supplied the creative design and Ken did the technical work. It wasn't until we saw the finished product that we ever thought of trying to sell it. We placed a small ad in a magazine and hoped for the best.

That first software program, a game we called Mystery House, eventually sold over 10,000 copies. It was a hundred times more successful

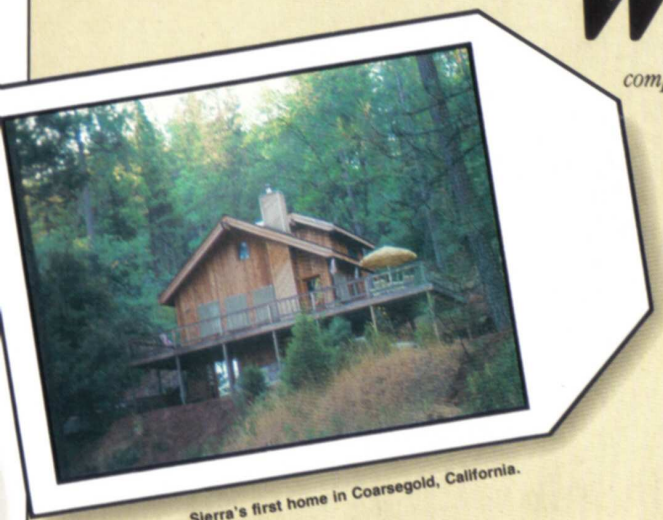


Our first adventure game, Mystery House, from 1980.

than we ever thought it would be! From that family project, we started a family business now known as Sierra On-Line, Inc.

When we started Sierra, we had no idea how big the computer industry was going to become. We thought computers and software would always be a small industry, of interest only to hackers and hobbyists like ourselves.

Well, we were wrong. Our little software business quickly outgrew the space available on our kitchen table, and the operations had to be moved into the den and spare bedroom. But that didn't last for long. Soon, we had no choice but to move our business to a larger building above the local print shop.



Sierra's first home in Coarsegold, California.

Sierra founders Ken and Roberta Williams in 1980 and today.

Before we knew it, we had occupied three other buildings in town and we continued to grow. With the house (and kitchen table) once again available we created three more bestselling adventure games (The Wizard and the Princess, Mission Asteroid and Cranston Manor) over the next 18 months.

Today, I don't work out of the spare bedroom anymore (our first house burned down in late 1982). I had to begin designing my adventures at the office in downtown Coarsegold. We hired some extra hands to help us out (about 77 pair at last count) and now our little software company takes up most of the town's biggest office building. It's very different from working at home, but the office still has a very "homey" feel to it. We're all very casual (no neckties or shoes) and everyone gets along. It sounds a little trite, but we really do try to be one happy family. Every time I visit the Sierra offices, I think of a little line my mom used to say when she brought dinner to the table, "Here comes another miracle from the kitchen." It was her favorite joke. Sierra On-Line is our miracle from the kitchen, and with every new product comes a new miracle. I hope you enjoy them...

Signed,

Roberta Williams

BACKGROUND

"Our specialty has always been adventure games."

Over the last seven and a half years, we've published bestselling word processors, arcade games and programming utilities - but, from the beginning, Sierra's biggest claim to fame has always been the adventure game.

Back in 1979 when Sierra first got started, there was only one type of adventure game - the text adventure. I wasn't surprised when I learned that Roberta had written her own adventure game. Ken sent me a few copies of it. A clerk in the Computerland store helped me get the game working, and I was stunned. I remembered all the text adventure stuff I'd seen Roberta play, but this game had pictures! The first screen showed this creepy, old house, and if you typed GO NORTH you got a close-up of its front porch!

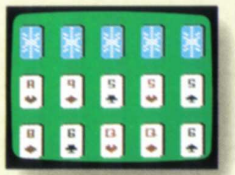
Since then, it's been one innovation after another for Sierra adventures. Initially Roberta's adventure games mixed graphics and text (a first). Next they featured color graphics (another first). When there were too many innovations for Ken to handle alone, he hired programmers and Roberta put them to work on her new adventure projects.

In 1984, Sierra debuted their latest adventure design, the "3-D Animated Adventure Game." It became the first to feature a main character that could "maneuver through the graphics in a 3-dimensional perspective." He could travel from one scene to the next, frame by frame. If he was in front of a castle, he could walk directly inside the castle.

If you typed out a command to Graham, such as "BOW TO THE KING," Graham understood what you told him.

Scene from King's Quest.

Later, Sierra adventures would include games such as poker and blackjack.

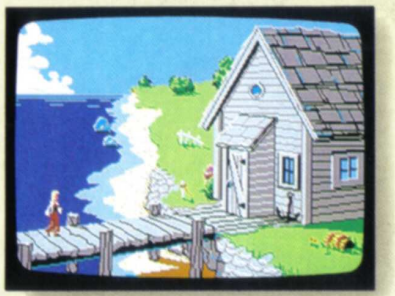


Scene from Police Quest.

Scene from Leisure Suit Larry.

We have even incorporated arcade sequences into a few of our games.....

.....and the game graphics have taken another leap forward in resolution.



Scene from King's Quest IV.

At Sierra, adventure games have always been our specialty. We began our work when computers were young, and we intend to remain the innovative force in adventures all the way through interactive video disks (but that's another story).

- Roberta Williams

KING'S QUEST III - *To Heir is Human*

LEISURE SUIT LARRY IN THE LAND OF THE LOUNGE LIZARDS

"I really got my chance to do something silly and off the wall with Leisure Suit Larry. It's a game that adults can really have a good time with, and it's a great game to bring out at parties."
- Al Lowe

Meet Larry, the original blind date nightmare. The kind of guy you wouldn't want your daughter to date, let alone meet. Become Larry, the lovable nerd and would-be swinger as you take on the town of "Lost Wages" for one fabulous night.

By Al Lowe and Mark Crowe

Leisure Suit Larry is a comedy/adventure game that lets you experience the "swinging singles scene" for one crazy night.
You'll dance. You'll drink. You'll gamble. You might even meet the girl(s) of your dreams. And you'll have a good time doing it.
Slip into your leisure suit and take a raucous, risque romp through the singles scene and have a ball playing this challenging adventure game that will test your street smarts and suave sophistication.
We guarantee it will be a night you will never forget. Leisure Suit Larry is a great game for get-togethers or any time you need a good laugh. It makes a terrific gift, too.

"It's just good fun with a great deal of depth."
- Computer Entertainer

SPECIAL FEATURES

Five correct answers are required for the player to advance to the actual game.

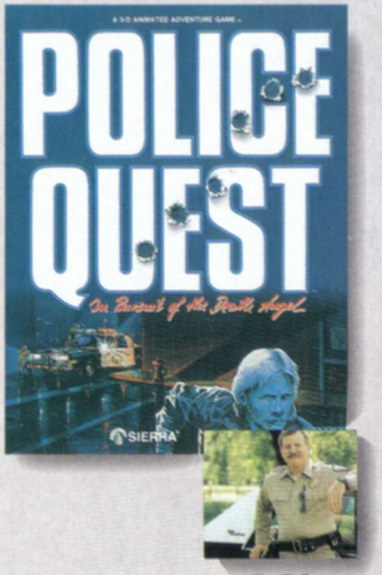
POLICE QUEST - *In Pursuit of the Death Angel*

"I hope the game will give players an insight into what it is like to be a police officer. It should give an idea of what we feel and go through."
- Jim Walls
Retired Highway Patrolman

Police Quest is Sierra's trek into the brutal world of vice, drugs and homicide. An adult perspective on the life of a police officer, Police Quest deals not only with "Dirty Harry" aspects of the profession, but also with its daily routines.



Jim Walls

Police Quest puts you in the role of a police officer in a small middle-American town. Your goal: to stop the flood of illegal drugs into the once crime-free community. Experience the daily trials of a police officer as you handle traffic violations, attend briefings, and experience the frustration of bureaucratic red tape. Face life-threatening situations, where the lives of innocent people depend on your sound judgment and quick reflexes.
Police Quest is the most authentic graphic adventure game available for your computer. Players are required to follow police procedures during the course of the action, just as officers must follow them in the real world. A manual explaining police procedures for arrests and other situations is included with the package. Police Quest is a dramatic tale straight from today's headlines!

- Roberta Williams

From generation to generation, Mother Goose has been consistently delighting boys and girls of all ages, and the magic remains as strong as ever.

The enchanting Mixed-up Mother Goose takes your child on a wonderful "adventure in dreamland" where he or she will help Mother Goose to find her mixed-up rhymes and restore them back to normal. Among the Mother Goose favorites included are: Jack and Jill, Little Bo Peep, Humpty Dumpty, Little Miss Muffet, Old King Cole, Hey Diddle Diddle and many more, in fact 18 in all.

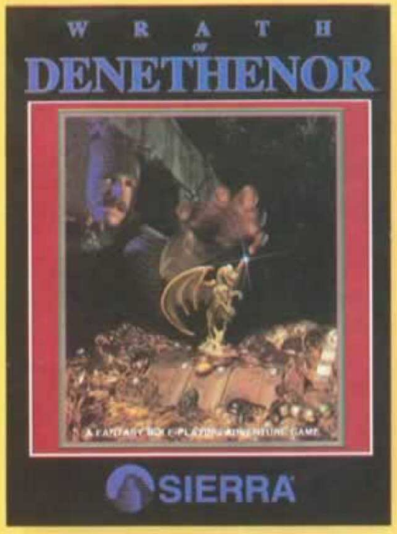
ADVENTURERS WANTED: NO EXPERIENCE REQUIRED

It's all the rage in college dormitories and hobby store backrooms! Groups of people playing a game made up of lots of little lead sculptures (usually elaborately painted), an assortment of dice with anywhere from 6 to 128 sides (yes, 128 sides!) and a playing board covered with little octagons, lines and drawings. At one end of the table a person sits rolling the die and saying things like, "four damage...Sir Godfried."



This is fantasy role-playing. Each player is given an alternate personality or "role" to play in a fictitious situation. The situation may be the saving of an imprisoned king or the pillaging of an ancient tomb. The whole game is presided over by the "Dungeon Master" who invents situations and calculates the success of the players through a system of player's manuals. Probabilities are decided by the roll of the dice.

In Wrath of Denethenor, the program takes on the role of the Dungeon Master and the computer calculates your probability to succeed as you play.

As the player, you become a thief and scoundrel in a fantasy world. There are many great adventures to be experienced an an ultimate goal to achieve. During the course of the game you may rob banks, pillage treasures of kings, initiate bar brawls and engage in sea battles. As you play, your "character" grows in skill and knowledge and you'll learn magic spells to move through locked doors, turn invisible or stop time. Wrath of Denethenor offers a universe in your computer where almost anything is possible!

"It easily earns a 10 out of 10. This one should be on everyone's must-buy list."

NEED A HINT?

Is that nasty troll blocking the bridge keeping you awake at night? Get help quick with Sierra's hint books.

Sierra now offers Hint Books for all of its 3-D Animated Adventure Series line. Each hint book offers suggestions and game maps for players that are "stuck" trying to solve a game puzzle. To find hints for a puzzle, the player simply locates the appropriate hint. Using a special marker included with the book, the player then uncovers the hint which is covered with invisible ink. Because there are multiple solutions to each puzzle, the possible solutions are arranged from the easiest to the most difficult.

HINT BOOKS OFFER MORE THAN JUST HINTS

Sierra hint books provide much more than hints. With each Sierra hint book you get the following:

- Complete game maps
- Location of all the objects in the game
- A complete breakdown on scoring. Learn exactly what items or actions give points and how many.
- Fun things to do that you may have missed your first several trips through the game. Includes all the "way out" tricks and jokes the designer may have put into the game to make it more fun.

GET A "LEISURE SUIT LARRY" T-SHIRT!
